

HANDS OFF SUMMER

join the 1k students, workers, and community members who demand that UC drop disciplinary action against a UCSC grad worker for participating in a legal, union-sanctioned strike in Spring 2024.

FEWER UNITS // HIGHER RENT

A new housing complex is under construction in the East Meadow and scheduled to open in Fall 2025. The new Family Student Housing (FSH) will have 80 fewer units, despite the ongoing housing crisis in Santa Cruz. Rent will increase by 30%, rising to \$2500/month. The new childcare center, which will serve students, faculty, and staff, is slated for a childcare cost increase; costs have not yet been disclosed.

NOT ANOTHER CENT ON RENT

UC is the largest landlord in the state. Rent hikes at FSH contribute to regional + statewide housing crises. Through its local real estate investments, UC bears responsibility for driving up rental prices. Refusing to provide adequate affordable housing shifts the burden to the city and region, raising rents for everyone.

PAY US ENOUGH TO LIVE HERE

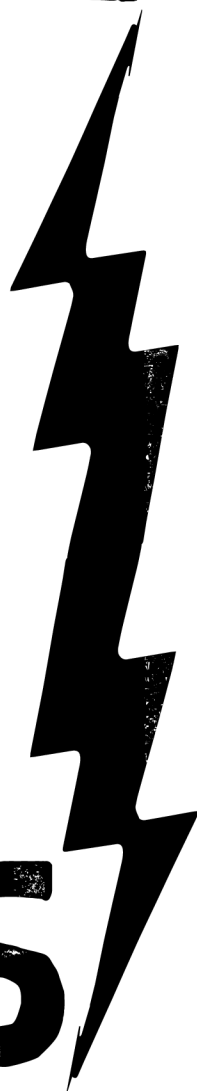

These issues are connected: UC relies on cheap graduate student labor and does not pay enough to cover rising housing costs. We cannot afford to live where we work. Cutting FSH units and hiking FSH rent contradict the university's stated principles and strategic plan, including the goal of reducing student rent burden.
